

Let Your Turkey Poultlets Have a Head Start With Super Easy Start

## Super Easy Start for Turkey Poultlets

### Supplies Clean Fresh Water Instantly on Demand

#### Super Easy Start Advantages:

- Self activating
- Poultlets keep reservoir clean
- Less management
- Dry floors
- Great bird uniformity
- Increases livability
- Outperforms all other activator systems on transition weight
- For use up to 30 poultlets per unit
- Less time spent training poultlets
- Works in severely sloped houses
- Great for transition into finish barns
- Low maintenance

**Super Easy Start for turkeys outperforms other watering systems in bird health, livability and weight gain. The system is designed for start to six weeks for toms and start to twelve weeks for hens. Contact your local Diversified distributor for more information.**

Let Your Turkey Poults Have a Head Start With Plasson Feed Pan

## Improve Your Bottom Line: Upgrade to the Plasson Turkey Poults Feed Pan

### Feed Pan Advantages:

- Easily attaches to most feed systems
- Pan design allows easy access
- New regulator design increases flood feeding
- Design allows feeder to easily re-enter flood stage at any age
- Open access prevents poult entrapment
- Retaining lip improves feed efficiency
- Adjustable feed regulator provides optimum feed levels for every turkey breed
- Pan design helps stimulate feed consumption during operation
- Pelletized feed retains shape due to pan and cone design
- Plasson quality engineered plastics designed to last for your next generation

**Improve performance by replacing outdated feed pans. The revolutionary design of the Plasson Feed Pan has proven results for achieving better feed conversion and heavier weights. Contact your Diversified distributor for more information**
